

***Overview**

Information stone for handicapped zone

PC-01

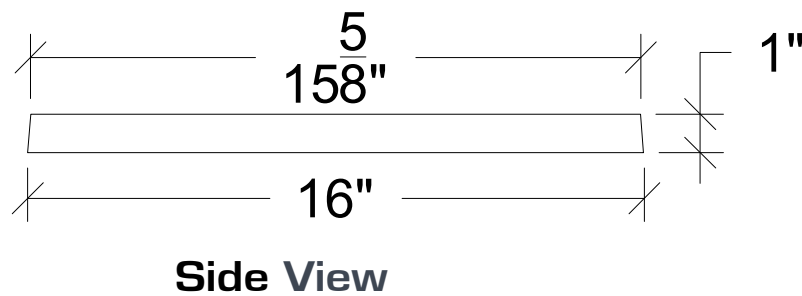

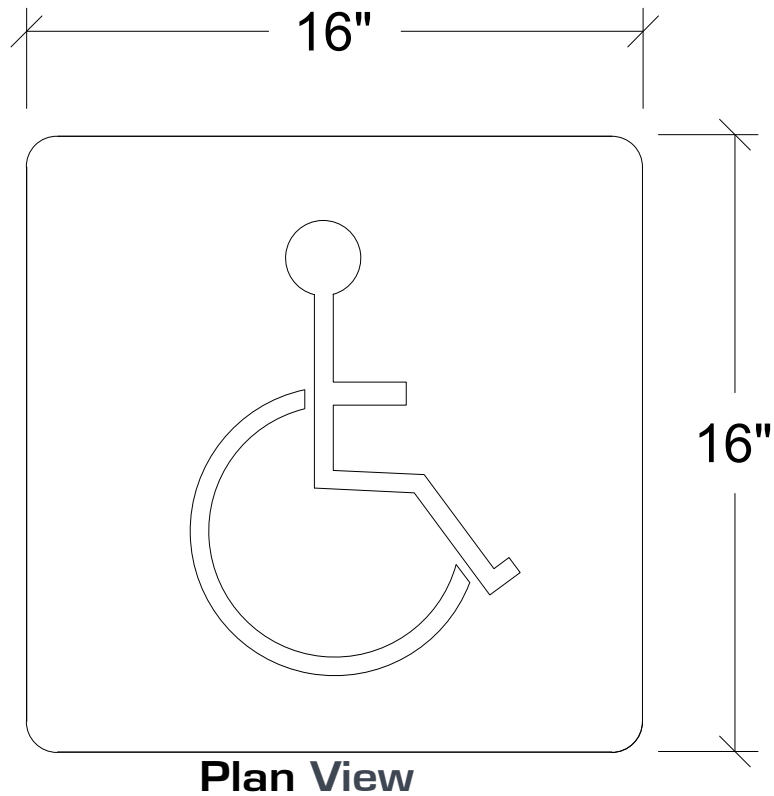

***Approximate weight**
polymer concrete plate: 19 lb

SHEET 1/2

Unscaled

Tolerances: +- 1.5 %	Standard: Issue Date:
Dimensions: In & Ft	Drawing No. PC-01
Level Revision: 0	Date: aug/21/2020

SPECIFICATIONS

1. Polymer concrete $f'c=11,379$ psi.
 2. Flexural strength (average 3,514 psi) ASTM C-78..
 3. Water absorption (average 0.136%).
 4. Chemical protection against wear by UV rays.
 5. Dielectric product.
 6. Excellent resistance to chemical corrosion by contact with solvents, fuels and oils, etc.
 7. Approximate weight: 819 lb
- Color: blue plate with white logo.
